

# Continuous Cloud Security and Compliance Assurance

for Microsoft Azure, Amazon Web Services and Office 365

## COMPANY

A Gartner recognized cloud security and compliance product company dedicated to identifying and eliminating cloud risks

## PRODUCT

Retail organizations adopting public cloud technologies, handling personally identifiable information (PII), payment card information and customer’s personalization data, will now be able to **prevent >80% security breaches** and **enforce compliance** with security frameworks, applicable regulations and data protection laws using Cloudneeti’s Continuous Cloud Assurance platform.

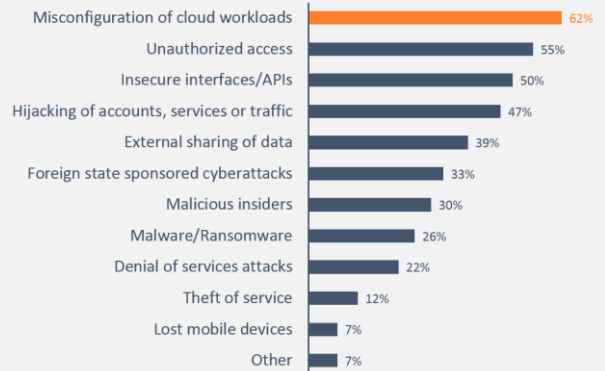

## CUSTOMERS

Enterprises, Managed Service Providers (MSPs) and Independent Software Vendors (ISVs) in the Healthcare Industry that store and process healthcare data. Decision makers across that span the IT and GRC roles who need to achieve and maintain cloud security controls.

## MISCONFIGURED CLOUD IMPEDES DIGITAL TRANSFORMATION

Organizations are challenged to (a) prevent security breaches and (b) prove compliance for public cloud workloads

Source: [Cloud Security Report, Cybersecurity Insiders, 2018](#)

## GARTNER RECOMMENDATION

“ Through 2024, organizations implementing a cloud security posture management (CSPM) offering and extending this into development will **reduce cloud-related security incidents due to misconfiguration by 80%**

- Gartner
